

MULTI-FLEX PORTABLE MIST COLLECTOR

**Description:**

- The mechanical oil mist filter has an efficient degree of separation oil mists and up a high quality HEPA filter. The filter box has a large filtration area, is washable and is made of fiberglass media with aluminum separators. (The HEPA filters are not washable)
- The FLEXI-II Extraction Arm is a superior extraction arm c/w an advanced design 'Parallelogram' counter balancing system that eliminates the need for continual adjustment of friction joints and allows for an un-paralleled ease of movement. The FLEXI is an ideal solution for most "source capture" applications. It is also specifically recommended for applications requiring an "easy to position" extractor that does not require constant adjustment. The design is compact and smooth, excellent for areas with low ceiling. The FLEXI Extractor Arm comes standard as 3m (10') long and Ø200mm (8") in diameter.

Features:

- Cleanable fiberglass media filter
- 95% Oil mist filtration
- 99.99% HEPA filter
- Dirty Filter Alert (Magnehelic gauges)
- 10 Ft Extractor arm with Hood
- Capture at Source: OSHA Compliant
- 115V / 1 / 60 Hz, 1.5 HP

Benefits:

- **L**ow Energy Consumption
- **E**xcellent Filtration
- **V**ery good efficiency
- **C**leanable, Reusable Filters
- **O**riginal design, great portability

30 years experience of construction and production are at your disposal!
LEV-CO extraction systems are a combination of well tested solutions and new ideas.
LEV-CO is always a step ahead, but not expensive!
