case study

**APPLICATION:**

At an industrial pump and fluid technology manufacturing company, keeping the work environment clean is imperative. Workers began to complain about breathing in small particulates, created by the deburring and grinding of pump components and impellers.

**SOLUTION:**

As the components being worked on fell within specific size parameters, LEV-CO's suggestion was to incorporate a downdraft table system complete with high efficiency filtration and self-cleaning capabilities.

**PRODUCT DESCRIPTION:**

1 x DT-3000 with 5'x3' work area and Vibra-Pulse Pneumatic Self-Cleaning Function

**INDUSTRY:**

Industrial Pump and Fluid Technology Manufacturer

**TESTIMONIAL:**

"It is environmentally friendly, first and foremost. In addition, it keeps all the hazardous dusts out of our workers' breathing zone, which was our primary goal."
