MP-14 MIST COLLECTOR CW
PRE-SEPARATOR

MUSASHI AUTO PARTS
CANADA INC.

©Copyright. All right reserved. All information may not be reproduced, handed over, copied, Xeroxed or translated into another language in any other form or means with out permission from LEV-CO.

APPLICATION:

Metal machining, deburring, part washing, grinding

SOLUTION:

Source Capture: - The mist is captured at source with receiving hoods.

Convey/Transport of dust: - Once captured the mist is transported through the duct system and pre-separator to the mist collector. The duct is fully welded and sealed.

Exhaust: - On the top of the mist collector.

PRODUCT DESCRIPTION:

- o One (1) MP14 industrial air cleaner with a 1.5 Hp TEFC motor **208-230/460/3/60 Hz**
- o One (1) 24" High Stand Option for Standard MP14 Unit
- o One (1) pre-separator
- o New ductwork sections and fittings
- o Installation & start-up by LEV-CO

INDUSTRY:

Metal machining

TESTIMONIAL:

"We needed an exhaust solution for various types of processes from the finishing line.

LEV-CO designed and installed a solution that works seamlessly with our process, a good job overall!"
