

## MINI-FLEX EXTRACTION ARM

### Soldering, gluing and Laboratories.

Mini-FLEX extraction arms are designed to extract smoke, gas and light dust from soldering, grinding, gluing and laboratory work.

### Easy to move.

Modern parallelogram technology is the secret. The d.100mm arm is extremely easy to move and still retains its position. The extractor hood can be angled more than 110 in all directions.

### Bench Top mounting.

Mini-FLEX can be mounted standing on top of a table with a hole through the table or at the edge of the table with the included table bracket. Turning flange 360. Outlet with 3.15in. inside for Mini-FLEX d=3in. and outlet d=4in. inside for Mini-FLEX d=4in. is included.

### Wall or ceiling mounting.

Mini-FLEX can be mounted on the wall or in the ceiling with the included standard bracket. 360 turning flange. Outlet with 3.15in. inside for Mini-FLEX d=3in. and outlet d=4in. inside for Mini-FLEX d=4in. is included.

### 40 Years Experience.

40 years experience of design and manufacturing at your service. The LEV-CO products are a combination of well proven technique and progressive new ideas.
