

### Single Extractor with Balancer

100mm (4") • 125mm (5") • 150mm (6") • 200mm (8")

#### The Idea

The **Single Extractor with Balancer** is specially developed for applications where you have to cover only one working bay. It is a reliable and functional solutions for all types of vehicles. The balancer raises the hose and nozzle after disconnection and keeps them lifted. Available in both Low Temp. as well as High Temp. Hose.

- Low Temp. Hose: suitable for temp. of 250° F
  - High Temp. Hose: suitable for temp. of 600° F
- Easy to install, they can be equipped with an

individual **P-Max®** fan and mounting bracket or they can be incorporated in a centralized overhead duct and fan system.

#### 30 years experience

30 years experience of construction and production are at your disposal! The **LEV-CO** extraction systems are a combination of well tested solutions and new ideas.

**LEV-CO is always a step ahead, but not expensive!**
