FLEXI EXTRACTION ARMS – VARIOUS FUMES TOOL SHARPENING AND CUSTOM COATINGS

THE LOCAL EXHAUST & VENTILATION COMPANY®

APPLICATION

TOOL SHARPENING AND CUSTOM COATINGS – Various tools and bits are being processed, cleaned, or coated in an agitator, acetone cleaning station, or kerosene bath. This takes place in a small 15' x 11' room where the fumes can be overbearing at times. Exhaust Solution needed to meet the criteria:

- Easy usage
- Good flow
- Central exhaust

SOLUTION

Source Capture: - P-007 FLEXI extractor arms.

Convey/Transport of dust / fume: - The dust is transported through a centralized duct system

Exhaust: Central exhaust fans

DESCRIPTION

Three	(3)	P-007 Flexi Extraction arms complete with wall-bracket and manual damper
One	(1)	Central Exhaust Fan – 5HP

INDUSTRY

Tool sharpening and custom coatings

TESTIMONIAL

"We needed an efficient fume removal solution for our various processes. The fume is not an issue any longer. LEV-CO came up with a great solution which perfectly fit with our needs. The system is working very well and is much more pleasant to stay in the room, so our employees are very happy with it."
