case study

APPLICATION:

A light manufacturing company had two continuously working welding stations. This included welding light standards and related electrical applications. The welders were breathing in harmful welding fumes.

SOLUTION:

LEV-CO installed 2 x 14' EZ Arms with boom extensions attached to the wall. The welding smoke is now extracted away from employees and ducted directly outside. Light source illuminates work stations for better visibility and the workers are extremely pleased. Furthermore, productivity has increased.

PRODUCT DESCRIPTION:

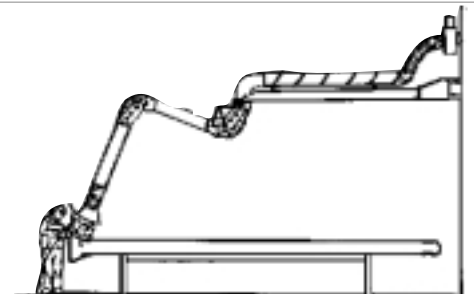

- 1 x 14' EZ Arm and blower assembly
- 1 x 10' EZ Arm
- 1 x 10' Extractor Arm

INDUSTRY:

Lighting Equipment Manufacturer

TESTIMONIAL:

"LEV-CO has literally eliminated the pollution problem with their simple, low maintenance arm - blower combination!"
