

# MOBILE FUME COLLECTORS

## ROLL FLEX ©

The ROLL FLEX filter is ideally suited for most welding fumes, grinding and most non-explosive/flamable dust applications. This solution is compact, very flexible and comes with a 7' or 10' extraction arm.

Best suited for the following applications:

- Training, testing facilities & schools
- Light to medium welding applications
- MRO-Maintenance repair & overhaul
- Small to medium welding facilities
