

WALL MOUNTED FILTERS WITH ARMS

WALL FLEX ©

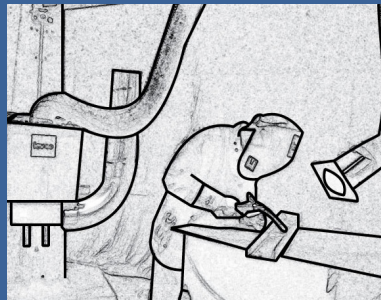

Ideal for SINGLE workstations that require a self-supporting extraction arm and a filter/fan combination that allows the air to be returned to the facility. The WALL FLEX base model comes complete with a “cleanable” filter while the WALL FLEX ECO comes complete with a “Self-Cleaning” filter system.

Best suited for the following applications:

- Low production and re-work welding process
- MRO-Maintenance repair & overhaul
- Educational facilities
